CLAIM

The Eye Plug is a modified outlet that will allow the outlet to turn on and off from dusk to dawn or use override and use plug as normal. Use is for outdoor lighting, lamps, seasonal lights, etc. A conventional timer must be reset when the power goes off due to storm or other reason. This would operate on light and dark thus allowing a person on vacation or not wanting to reset timers to use this outlet and outlet will operate with light or dark as long as the power is restored there is no resetting needed.
